

Vis 1 (Dashboard):

<https://public.tableau.com/app/profile/mahmoud.hamed.mohey/viz/Mostlikedcategoriesandchannels/Dashboard1?publish=yes>

Summary: There are two visualizations at this dashboard (The most liked and disliked categories and the most liked channel), and there also a filter with year I used both bar chart and horizontal bar chart because it can show the difference between values in a good way.

Design comments: I found that the music is the most liked category, the entertainment is the most disliked category and SMTOWN is the most liked channel.

Vis 2:

<https://public.tableau.com/app/profile/mahmoud.hamed.mohey/viz/numberofviewsbystate/Sheet2?publish=yes>

Summary: I made a good use of USA map to show the states on it with the number of views and I used the map to show the state and its location with its views.

Design comments: I found that FL state is the most one watched movie.

Vis 3:

<https://public.tableau.com/app/profile/mahmoud.hamed.mohey/viz/numberofviewsandcommentsperyear/Sheet4?publish=yes>

Summary: It shows the number of views and comments at each year, and I used line chart to show the increasing or decreasing over years.

Design comments: I found that after 2016, The number of views and comments start to increase especially in 2017 and 2018.
